

TRIED AND TESTED IN THE TOUGHEST ENVIRONMENTS. INCLUDING THE CLASSROOM.

The Activboard® is designed by teachers for teachers. And then tested to the highest degree.

Made with a solid screen, little kids, or big ones, can safely lean on it or rest their hands against it when writing. Dirty or paint smeared hands make no difference to its performance.

Kick it... hit it... throw a coin at it... stick a compass in it... it'll still continue working.

It'll also happily cope with temperature changes. So, for example, heat in an uncooled classroom over the long Summer break won't... break it. Even at Uluru (Ayers Rock).

Sitting behind the board is our specially designed electromagnetic grid, unaffected by any damage to the screen surface.

And it allows incredible accuracy. On-screen tools, such as protractors, for example, can measure down to a single degree.

Our battery-free Activpen® writes just like a pen. And, with cursor, rollover, and click functions, it acts just like a mouse. Minus, of course, those nasty squeaking noises... from chalk.

Unique to the Activboard is its connectivity. Want to connect to your PC with USB? Got it! Serial Port? Check. And there's more! The Activboard allows you to connect with your students.

The Activboard has built in wireless to connect to our student peripherals, the wireless Activslate® and Activote® tools to ensure student engagement through participation.

ACTIVBOARD.

THE INTERACTIVE WHITEBOARD FOR THE ACTIVCLASSROOM.

COMPLETE WITH

Lesson development software Each Activboard® comes with Activstudio® our award-winning software for Mac or PC, along with thousands of resources and sample lessons.

Two Activpens Our unique battery-free, wire-free mouse pen - and a spare.

Radio frequency technology 'Talks' wirelessly with our other products without requiring additional computer ports, receivers or drivers.

Low glare screen Super high quality projection surface minimizes unwanted glare.

Smooth, swift pen response Draw and write with no annoying time lag.

All connection cables & power supply Facilitates all possible connection options - USB or Serial - right out of the box.

Wall mount brackets For easy, secure mounting to most walls.

Handy pen holder Clips to the Activboard to keep your Activpens safe and handy.

Guides User guide - to get you started. Installation guide - to show you how to set it up.

Installation service Prefer not to DIY? One of our Certified Installation Partners can help.

Warranty 3 years to protect your investment. 5 years with the purchase of Promethean Certified Installation.

Free extras Upgrades, support, online training, user forum and resource downloads from prometheanplanet.com.

CHOOSE FROM

Size 78" diagonal is suggested for most classrooms. Other sizes are available to meet your needs.

Stand Not possible to wall mount your board? Our mobile stand allows for portability when needed.

AND ADD

Take a look at the other parts of our [Activclassroom...](#)

Activprimary® Our unique interactive software, created specifically for young learners, features a lively interface and resources tailored to the elementary classroom.

Activlate® Interact with the Activboard® with our wire-free 'mini-board', small enough and tough enough to pass around the class or allow the teacher the flexibility to move around the classroom while teaching.

Activote® Instant whole group feedback and assessment during instruction. Generate discussion or gather opinions or answers from every student. It's easy to enjoy formative assessment when your lessons are created with Activstudio®. And our superior radio technology ensures that student answers can remain anonymous as no pointing to a receiver is required.

Activtablet™ Connected to your computer, it acts just like a small Activboard®. Great for drawing, designing lessons or tracing where you need to use a pen away from the Activboard®.

Activsupport A range of professional training programs to suit your needs from online to train-the-trainer.

TECH SPEC

Digitizing technology: Passive electromagnetic. Internal resolution: 2730 points (lines) per inch. Tracking rate: 200 inches per second. Output rate: 120 coordinate pairs per second. Connection options: Serial (RS232), USB 1.1/2.

Certification: CE, FCC, UL listed. Operating temp: -10°C to +50°C. Storage temp: -25°C to +70°C. Overall dimensions: 78": 1700 x 1240mm (67" x 49"). Board weight (packed): 78": 26kg (57lb), Serial Cable: 26.2 ft. USB Cable: 16.4 ft.
