Dear Level 3 Audio Visual,

Thank you for installing our Promethean Board. It helps our class a lot and it is easier than using a slate. We all like using it because it is just as easy as writing on a piece of paper, only easier. Promethean Boards are simple to understand and work on. That helps in 5<sup>th</sup> grade a lot. Thank you again.

Sincerely,  
Lindsay Weigel

What I like about it is
